	Quality Management System	Document No.	QA.POL.01
		Issue Date	05.02.2022
		Revision Date	24.06.2026
		Revision No.	03
Subject	Environmental Policy		

As KORMAS Electric Motor Industry and Trade Inc., we are committed to conducting our activities in accordance with the requirements of the ISO 14001:2015 Environmental Management System standard, continuously improving our environmental performance, and integrating a sustainable manufacturing approach into all our processes.

We manage our Environmental Management System in line with the organizational context, the expectations of interested parties, a risk- and opportunity-based approach, a life cycle perspective, and sustainability principles.

Within this scope, we:

Continuously improve our Environmental Management System in accordance with the ISO 14001:2015 standard and regularly review its effectiveness.

Evaluate the environmental aspects of our activities from a life cycle perspective and aim to minimize their environmental impacts.

Ensure full compliance with applicable legal requirements, customer specifications, and other environmental obligations to which we are committed.

Promote the efficient use of energy, water, and natural resources; prioritize reducing waste generation; and expand recycling and recovery practices.

Continuously improve our processes to prevent pollution and maintain environmental risks under control.

Carry out initiatives to reduce greenhouse gas emissions in the fight against climate change and support a low-carbon manufacturing approach.

Organize training and awareness activities to enhance the environmental consciousness of our employees and collaborate with all stakeholders.

Consider our sustainability objectives as an integral part of our corporate strategies.

Encourage environmentally friendly and innovative manufacturing practices by following technological developments.

KORMAS regards environmental protection not merely as an obligation, but as a responsibility towards future generations, and aims to contribute to a sustainable future with its philosophy of "The Power That Drives Life."As KORMAS Electric Motor Industry and Trade Inc., we are committed to conducting our activities in accordance with the requirements of the ISO
